

Italy - Germany - Spain

The opportunity to study abroad offers experiences that enrich many aspects of a person's life: personal, professional, intellectual and educational growth

Access to Language Studies is introducing language programs in Italy, Germany and Spain. By immersing in the daily life of the host country, students will enhance their communication skills in a foreign language, expand their global awareness and gain an international perspective.

Language courses are held all year long for individuals or groups of students. All schools are accredited and classes are taught by experienced teachers. Courses are tailored to meet the needs of international students and to move students to a comfortable level of functioning, particularly in communicative skills. Reading and writing activities will accompany communicative skill building. Cultural and leisure activities complement the language course. Excursions to nearby cities and important sites are also available.

Application Procedure: Application Forms are available from **Access to Language Studies**.

Destinations: We offer Italian lessons in Rome and Milan, German lessons in Berlin and Spanish lessons in Barcelona and Madrid.

Accommodations: Students residences, bed & breakfast and host families are carefully selected by the local school.

Activities: Cultural visits and excursions play an important part in learning about and understanding culture. Students receive a weekly schedule of cultural and leisure activities.
